MOOD: ☽ stricken

MUSIC: all is silence.

Superman's packing for a nice weekend getaway to the Fortress of Solitude. When suddenly he gets a text message! (No, I don't know how Superman gets text messages. Don't interrupt.)

SUPES--GDZILA STMPIN TKYO AGIN. HLP PLS? RITENOW? <3
ERTH

Yeah.

I wasn't packing, just staying after class to make sure all my homework was handed in. And Mom came flying by (for dignified and severe values of flying).

When Mom ain't happy, ain't nobody happy.

Dad, Duke, and Wonder Woman leave for [insert classified location here] in an hour. Everybody else? Herds desks this weekend, for data support.

Guess my music will be supplied by LastFM via my headphones.

Maybe Wabbit will still get to break away long enough to get crabs. =X>

I'm trying to be a cheerful, willing Platypus and not pout. Because, hey, somebody's gotta save Tokyo.

I'll pout for the both of us. I *really* wanted to feed you Ruby's. (Notice I did not say "feed you *at* Ruby's." For I am a learny learner who learns.)

Alas. I need to find new musics, myself.

Although the audiography community here is pretty good on that front. Do you know it? :)

Okay, a *lot* of these guys sound like they're raiding England. They're *fierce*. I hope their people don't have an ancestral grudge against my people. Any of my people.

 [sprrwhwk](#)

[May 23 2008, 09:36:21 UTC](#)

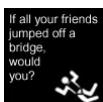

[COLLAPSE](#)

Raiding? I dunno. I don't get that from most of those. (Though it's cool music. Must investigate further. :-) For Scandinavians who sound like they're getting ready to invade... something... it's hard to beat [Combichrist](#).

For more in the same vein as what  [peacockharry](#) posted, [Qntal](#) is really good. Especially as

music to work to.

I've been listening to a lot of Carbon Leaf and Goldfrapp lately. The latter is better working music than the former, and they've got very little in common with each other or with anything else, but, ::shrug::, y'know, consistency, especially in musical taste, small minds, etc.

This heroing gig sometimes kinda sucks, man. How many people have jobs that require a plural for "apocalypse," I ask you? 8•P

[batwrangler](#)

May 23 2008, 00:03:09 UTC

[COLLAPSE](#)

There can be only one apocalypse. It just keeps coming back for a second, and a third, and a hundredth try.

:)

Apart from (waaaaaaay) too many?

And if heroing was easy, everyone would do it.

Still, it's a nasty job, that someone has to do, and I'm glad you are some of the people that are doing it.

And not just because I'd make a lousy hero. I'm more the wise/obscure Sage type, really. ;)

Still, it's mighty rude of this apocalypse to wait until it could steal your long weekend.

That sucks.

Though at least you have the heroic excuse to buck you up. We've settled on not going anywhere for Memorial Day, mostly because we're lame.

Music, eh? I'm not getting videos on my laptop properly at the moment, so I can't check on this, but here's a video which includes the flute player I had been hoping to see this weekend. He had more hair on the top of his head back then. <http://youtube.com/watch?v=Km8pFVC9ImM>

Aw, man. I was totally looking forward to gossiping about your visit with [txanne](#), too.

I send you virtual key lime pies, love, and recommend unto you the work of [SJ Tucker](#). She may or may not be to your taste -- she mostly does Pagan-flavored folk-rock -- but she is hawt, and her songs are pretty awesome IMO.

Duuuuude.

That totally sucks. On two counts, too--because not only are you, personally, losing vacation time, something is

bad enough for you to lose vacation time. Which, as a fried of mine who used to be in the army said, makes for a double-plus ungood with supersucky sauce. And sprinkles on top (mustn't forget the sprinkles.)

In the meantime, know anyone with a weakness for musicals? SOMething that takes a hard, analytical look at an uplifting classic.

Or, for those who might prefer Cole Porter.

It's a bad site, and when you have the time, you should look through it, preferably in the company of others, and with bheers and fudz, so as to make sure the monitor gets what it deserves for showing you such things.
